To Whom It May Concern

I write this letter in support of Nicolle & Trevor Drake from SOLID Racks who I have known in my capacity as Member for Manly for several years.

This successful Northern Beaches local business creates innovate storage, building and gym solutions that provide people with the freedom and flexibility to efficiently organise and interchange any space.

Their SOLID Infinity System has a number of potential applications for a range of community facilities including:

- Health and Aged Care
- Local Council pool and community centres
- Schools and educational facilities
- Urban landscaping and green walls
- Audio visual displays and monitors
- General storage

I encourage anyone seeking adaptable, efficient and cost effective storage and building solutions to consider the SOLID Infinity System.

Yours sincerely

**Mike Baird MP**
