Hi Trevor

Just thought I would write a quick letter to let you know that the feedback on the installation of your racking system has been extremely positive from all our members. Everyone is very impressed at the ease of movement the racks offer when moving craft in and out, greatly reducing the risk of injury and damage to their craft.

It is clearly evident that a lot of thought and time has gone into the research and development of your product. Their compact design allows for plenty of room to maximise the storage space, without it looking cramped or making movement difficult.

All components look to be manufactured to an extremely high standard, which I'm sure will service our area efficiently and trouble free for many years to come. Thank you so much for your professionalism and design work which went above and beyond our expectations. We will be ordering some more storage solutions from you in the near future.

Thanks Trevor and good luck going forward.

Kind regards

Steve Peatling
Facilities Manager
