

May 2015

To who it may concern,

“The SIS system is a mirror of Trevor & Nicolle's passion to solve whatever is in front of them. The potential of the SIS is absolutely endless & I can't wait to watch Solid Infinity Gym grow.

Its capacity to allow for creativity & imagination may very well change the way we look at space in fitness facilities in Australia.

If there are any fitness businesses looking for a point of difference, that something new or just starting out; I would highly recommend looking at the SIS”.
