

ROB BAIN, O'NEILL ASIA PACIFIC MARKETING MANAGER

"Being a surfer with a quiver of boards, and having a family based around the ocean, we have a real need to store and protect our equipment.

The simplicity of a good rack system allows space, and keeps your boards out of harm's way. The gun, the fish, the Shorty, all there at the ready when conditions are on.

Solid Surf racks are just what they claim. A real SOLID system and SOLID people who run the business. I am really happy with my racking system from SOLID, and now just pray for swell".
