

STEVE EVANS OAM, OLYMPIC MEDALIST, WORLD & COMMONWEALTH GAMES ROWING CHAMPION

"Whilst I was rowing I used surfing as my cross training activity which stood me in great stead for the arduous training regimen that was required to reach the top in rowing.

Since I stopped rowing I've become less flexible and have increased my quiver of boards to compensate!

Add to that a growing family who are into surfing, and all of a sudden you have a heap of expensive boards in your store-room getting bashed up by impatient young surfers champing to get into the line-up..... Although nobody ever seems to know how those little dings got there!

Not anymore. We now have a very organised storage room with all our boards in their own rack, easily selected and replaced by even our youngest.....

I'd recommend SOLID Racks to anybody who values their collection and needs to get their boards up off the ground, yet have easy access.

SOLID Racks haven't improved my surfing, but they've certainly solved my storage problems!
"
